SKILLS

- **Languages:** Python, JavaScript, C, C++
- **Technologies:** HTML, CSS, Node.js, React, Express.js
- **Databases/Tools:** PostgreSQL, MongoDB, Git, GitHub
- **Soft Skills:** Problem solving, Team communication, Time management, Adaptability

PROJECTS

TikiToppo — Real-Time Strategy Game | [GitHub](#)

Feb 26 - Mar 26

- Developed a real-time multiplayer strategy game enabling players to compete using secret Tikis and strategic action cards.
- Integrated Firebase Firestore to manage live game state synchronization across multiple clients with minimal latency.
- Implemented state management logic to handle real-time turn transitions, card actions, and dynamic board rankings.
- Designed an intuitive user interface to display secret objective cards, hand management, and active board positioning.
- Tech Stack: React.js, Firebase Firestore, JavaScript, HTML, CSS

Flashcard AI — Smart Study Assistant | [GitHub](#)

Dec 25 - Jan 26

- Built an AI-powered flashcard application that extracts and converts lecture notes and PDFs into interactive, multi-language study decks.
- Processed complex PDF parsing and managed asynchronous file handling to ensure efficient document uploading and text Extraction.
- Designed smooth 3D flip-card animations and responsive card-swiping interactions to optimize the user learning experience.
- Implemented multi-language translation and dynamic flashcard generation logic based on parsed notes.
- Tech Stack: React.js, JavaScript, Asynchronous APIs (PDF.js / Web APIs), CSS3 (3D Transforms), HTML

CGPA Calculator — Academic Performance Tracker | [GitHub](#)

Oct 25 - Nov 25

- Built a web-based academic calculator to assist students in computing, tracking, and predicting their semester and cumulative GPA.
- Implemented dynamic row creation and form handling for custom course names, credit units, and letter grades.
- Designed real-time score calculation algorithms to instantly derive total credits, total quality points, and overall CGPA.
- Utilized browser Local Storage to save user academic records persistently across browser sessions.
- Tech Stack: JavaScript, HTML, CSS, Local Storage

TRAINING

Jul 26

Python Teaching

- Conducted practical Python learning sessions for school students on YouTube with a focus on programming fundamentals.
- Introduced students to Python syntax, operators, data types, and basic input-output operations.
- Guided students in writing and executing Python programs to strengthen their logical thinking.
- Assisted students in identifying and correcting syntax and logical errors during coding exercises.
- Prepared practice problems and coding tasks to reinforce concepts covered during sessions.

CERTIFICATES

- Cyber Security | [Coursera](#) Jan 26-Jun 26
- Programming Fundamentals using Python | [Infosys Springboard](#) Jul 26
- Full Stack and React | [Infosys Springboard](#)
- Information Security | [Saylor Academy](#) Mar 26
- Indian Law | [Learn Foundation](#) Oct 25

ACHIEVEMENTS

- Solved more than **100** programming problems on online coding platforms.

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
• *Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.98*** Aug 25 - Present
- **Khastriya School** Arrah, Bihar
• *Higher Secondary Education; **Percentage: 75%*** July 23 - Mar 25
- **Gyan Bharti Public School** Patna, Bihar
• *Secondary Education; **Percentage: 83%*** April 22 - Mar 23
